

VECTIS PLUS Multi Point Lock

CYLINDER-FREE Multi Point Locking

VECTIS PLUS+

The Multi Point Locking market is a highly competitive market place with many 'similar' products; product differential is vital.

ERA has developed the next generation in Multi Point Locking; VECTIS PLUS - the Cylinder Free Multi Point Lock, first to market with hardened plates giving enhanced strength against attack.

The patented VECTIS PLUS encompasses ERA's traditional lever technology used in mortice locks for centuries; combined with today's need for modern locking systems.

The VECTIS PLUS is designed to meet the requirements of PAS 23/24 & Secured by Design.

All current ERA Multi-point locking variants can utilise the VECTIS PLUS gearbox, signifying no routing amendments needed - look out for VECTIS PLUS compatible icon on individual pages throughout this catalogue.

Benefits of VECTIS PLUS:

- Patented 5 Lever operation eliminates the need for euro cylinder operation.
No euro cylinder means the VECTIS PLUS is free from cylinder manipulation, breaking/snapping and plug extraction
- Door fabrication is made easier and quicker for the installer
- VECTIS PLUS can be keyed alike to ERA's mortice lock range; allowing a Multi Point Lock on the front door and a mortice lock on the back door both using the same key

Product Specification:

- VECTIS PLUS is available in the following backsets:
 - 35mm Backset - with centre hook and deadbolt option
 - 35mm Slave unit
 - 45mm Backset - with deadbolt option only
- All gearboxes are supplied with 3 x brass keys

The Door Lock People

- Suites with all Ikon Classic and Regency door furniture
- High corrosion resistance - Advanced Zircon® PVD Finish
- Solid handle grip
- Suitable for PVCu, aluminium, composite and timber doors
- 10 Year Guarantee

Revolutionary Design:

VECTIS is a unique range of door furniture that combines modern stylish design with traditional key locking to suit the new VECTIS PLUS multi-point locking system.

Designed with a patented internal key guide mechanism to guide the key into the lock and a unique patented integral shutter system; the VECTIS door furniture range ensures excellent weather sealing and has been designed to meet the requirements of PAS 23 – air, wind and water tests.

Designed with an ergonomically solid grip and a softly rounded back plate; both handle designs have been developed for improved performance, but can be supplied with optional spring cassettes if required.

Manufactured from high quality aluminium or zinc and protected by an advanced coating process. Handles are available in Zircon Gold and Chrome PVD, powder coated white and black finishes.

VECTIS Universal Adaptor:

- Universal insert solution for the VECTIS Locking system
- Stylish adaptor to convert current handles suited to profile cylinders to function with the VECTIS Locking System
- Unique patented integral shutter system on the external face of the handle back plate for PAS 23 assurance
